Portfolio: giulianaaltieri.github.io | LinkedIn: linkedin.com/in/giuliana-altieri

UX/UI Designer with **1.5+ years of UX/UI experience in automotive**, currently designing interfaces for a **major international automotive OEM** as a consultant at Italdesign Giugiaro. I maintain a **Figma design system**, turn requirements into **developer-ready UI** and validate designs with **usability testing** before release. A background in graphic design and motion gives my work strong visual craft and polished interactive prototypes.

01
Experience

UX/UI Designer
Feb 2026 – Present

Netcom Engineering · Consultant at Italdesign Giugiaro · Turin

- Maintain and extend the **Figma design system for a major international automotive OEM**, working closely with developers to keep components and specs consistent between design and code.
- Design **in-vehicle HMI** screens and components (central display, instrument cluster gauges), from **wireframes and interactive prototypes** to final UI.
- Deliver UI requests through a **Jira** ticket workflow, from requirement analysis to **developer handoff**, within an international team across time zones.
- Run **usability tests** before release and turn findings into design iterations.
- Design end-to-end for open-market clients in **robotics, companion apps, IT and pharma**: user flows, wireframes, prototypes and final UI.
- Create **motion prototypes** and visual assets in After Effects to present concepts to stakeholders.

Junior Graphic Designer
Mar 2025 – Feb 2026

Havas PR · Milan

- Managed **4–5 client projects in parallel** from concept to delivery for UN Women Italy, Tuborg Italia, Terna and Fratelli Branca.
- Designed campaigns, social media content and event materials in line with each client's **brand guidelines**.
- Worked directly with clients on briefs and feedback rounds, presenting design proposals.

UI Designer (Internship)
May 2024 – Feb 2025

Italdesign Giugiaro · Moncalieri

- Designed UI for **automotive mobile applications** and digital products in Figma.
- Contributed to the **end-to-end user experience** of product interfaces, from user flows to high-fidelity screens.

Design Assistant / Consultant
Jan 2022 – Nov 2023

JeToP (Junior Enterprise of Politecnico di Torino) · Turin

- Managed the internal visual identity and supported design projects for external clients.

02
